

6 Ports 10/100/1000M Industrial Switch with 4x RJ45 and 2x SFP ports

LIOX6-2SFP is a 4x 10/100/1000M RJ45 port and 2x SFP port Industrial switch. It features 3KV network port surge protection which is important for harsh outdoor environment and ensure the reliability of the uninterrupted system.

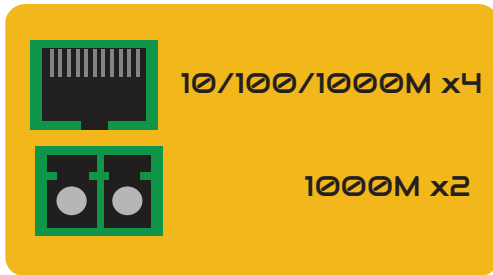

FEATURES

- 4x 10/100/1000M RJ45 + 2x GE SFP
- Supports IEEE 802.3x flow control for Full-duplex Mode and backpressure for Half-duplex Mode
- RJ45 Ports AUTO Negotiation/AUTO MDI/MDIX
- MAC address table of the Switch with auto-learning and auto-aging
- Supports full-duplex and half-duplex auto-negotiation
- LED indicators for monitoring power, link and activity
- Support Din Rail Mount
- IP40 protection

SPECIFICATIONS

6 Ports 10/100/1000M Industrial Switch with 4x RJ45 and 2x SFP ports	
Number of RJ45 ports (10/100/1000BaseT)	4
Number of SFP ports (1000M)	2
Switching capacity	12 Gbps
Performance Specifications	
Transmission Method	Store-And-Forward
Network Protocol and Standards	IEEE 802.3u
	IEEE 802.3x Flow Control
Mac table	Up to 8k
Environmental	
Operating temperature	-40 ~ 80°C
Storage temperature	-40 ~ 85°C
Operating humidity	5 ~ 95% non condensation
Power Supply	DC 12-48V
LED indicators	Power supply, network status and activity
Physical	
Dimensions	120x100x30mm
Weight	0.5kg

FUNCTIONAL DIAGRAM

ORDERING INFORMATION

PN	DESCRIPTION
LIOX6-2SFP	6 Ports 10/100/1000M Industrial Switch with 4x RJ45 and 2x SFP ports
PEA-24-30	Power adaptor 220VAC~24VDC 30W
